A FEW REASONS WHY WILCOX & GIBBS'

SEWING MACHINES ARE SUPERIOR TO ALL OTHERS 1st. The Superiority of their construction.
2d. Their noiseless motion phardly perceptible i a large room.

3d. Their utility, perferming all kinds of sewing in the neatest and strongest manner.

4th, The needles cannot be set wrong, hence do not break, as do others.

5th. They do not get out of repair, or require frequent expenditures for "new improvements."

6t. Their economy, consisting not more than one-half the price of interior machines.

7th. Their popularity, which is the best indication of their worth; they are now disposed of readily in every city in Europe, superseding every Sewing Machine hitherto in use.

8th. They perform their work with regularity and strength, without a talse stitch or break, so frequent with others, and can be managed and made to work by a child.

It needs but a trial of these beautiful and simple
Sewing Machines, to convince the most skeptical of
